FEKET FLEXO & NARROW WEB WATER COOLED LED CURING SYSTEM

SPECIFICATION	
Curing Width	**Adjustable Per Step (17,5mm + 17,5mm)**
Electrical Output	100W/cm
Optical Power Output	35W/cm
Wave Length	365-385-395-405nm
Supply Voltage	360/400V - 50/60Hz
Led Output	Dimmable %10 up to 100%
Cooling system	Water Cooled

Emitting window width 40mm.

Touch screen control panel.

Power-speed synchronization with

ADVANTAGES
■ Feket led uv curing systems offer higher print quality, faster and more reliable curing process.
■ According to the classical system, eliminates the costs of spare parts.
■ Be able to print on surfaces thinner and heat sensitive.
■ Total Energy saving of 3-6 times.
■ High performance for web applications.
■ Curing width can be adjusted by user.
■ Leds lifetime around 30,000 hours.
